PERSONAL SUMMARY

Developer with a focus on efficiency and **minimalism**, and an eye for good **design**. I am eager for new experiences, a **creative** problem solver, and fast learner. When working, I value code **quality**, sense of humour, **team-work**, reliability, and proactivity. I am happy to live in a time with great tools and frameworks to assist **people** in building applications better and faster.

PROFESSIONAL CAREER

Front-end Engineer

zooplus AG - Munich (May 2020 - today)

- Hired to be part of a transition and migration to a more JavaScript oriented ecosystem using React and Micro Frontends
