PERSONAL SUMMARY

Developer with a focus on **efficiency** and minimalism. I am eager for new experiences, a creative problem solver, and fast **learner**. When working, I value code **quality**, sense of humour, **team-work**, reliability, and proactivity. I am happy to live in a time with great tools and frameworks to assist developers in building applications better and faster.

PROFESSIONAL CAREER

Front-end Developer & Junior Designer

Flyla GmbH - Munich (Nov 2019 - today)

- Refactored the front-end code to diminish the current technical debt, seeking consistency. Worked with *React* and *Typescript*
- Improved the look and feel of the site with a minimal approach using *Figma*
